Man and environment are closely intertwined with each other, to maintain a balance or equilibrium in nature. To understand the relationship and witness various challenges in this regard, a practical initiative was taken by SOL by organizing a visit to the National Green Tribunal (Principal Bench), exclusively for the students of Sixth Semester of BBA LL.B. (Hons.) New Delhi on 19 February, 2015. They witnessed trial proceedings on contemporary environmental issues in two parallel sessions. Dr. Praveen Kumar accompanied the group.
