

MBA Program

NCU-SOM MBA Program will provide a platform to students to learn, understand and develop holistic approach to application of management theory and practice for real life problem solving in an increasingly global, technology oriented, diverse and dynamic business environment. Management graduates desirous of self-employment will be able to start their own business ventures or demonstrate their intrapreneurial capabilities for their employer organization. Management graduates with academic interest and aptitude will be able to actively pursue advanced studies and engage in research, teaching-learning or consultancy assignments.
