The Northcap University has instituted the Vice-Chancellor’s Innovation Fund to encourage innovative ideas and research. The scheme aims at encouraging innovative ideas amongst research workers, faculty members and students to seed research activity. Further, to support research, The Master Jaggannath Centre of Excellence & Incubation (MJCEI) at The Northcap University is established. The funding from VC Innovation Fund acts as an initial grant to nurture ideas, passion & convert products into startups.

Research proposals for funding from the VC’s Innovation Fund are submitted by faculty members to pursue innovative research ideas. The research proposal can involve collaboration with one or more scholars from The Northcap University, including students. The project proposal will be peer reviewed by the departmental committee from The Northcap University and one external expert. The principal investigator for the project proposal will also present the proposal to a committee consisting of one member of the Governing Body, the Vice-Chancellor and two Professors. The Committee, after considering the referee reports and the project proposal will recommend sanction of the project from VC’s Innovation Fund.

The sanctioned projects under the scheme will be regularly monitored by the Committee. The outcome of the scheme will be nucleation of new ideas that can be transformed into commercial applications which are beneficial to the society through MJCEI.

An initial allocation of Rs. 15 lakhs per department for projects led by the faculty and Rs. 2 lakhs per projects for students in each academic year is available.

The VC’s Innovation Fund shall be available to UG/PG student’s innovative projects based on their benefits to the society.

The Northcap University’s students/faculty are encouraged to submit projects for funding under this innovative funding scheme. The projects can be submitted throughout the year by sending entries at: VCFUNDS@NCUINDIA.EDU

Message from the Vice-Chancellor

Prof. H B Raghavendra
Vice-Chancellor & Professor

THE NORTHCAP UNIVERSITY has instituted the Vice-Chancellor’s Innovation Fund to encourage innovative ideas and research. The scheme aims at encouraging innovative ideas amongst research workers, faculty members and students to seed research activity. Further, to support research, The Master Jaggannath Centre of Excellence & Incubation (MJCEI) at The Northcap University is established. The funding from VC Innovation Fund acts as an initial grant to nurture ideas, passion & convert products into startups.

Research proposals for funding from the VC’s Innovation Fund are submitted by faculty members to pursue innovative research ideas. The research proposal can involve collaboration with one or more scholars from The Northcap University, including students. The project proposal will be peer reviewed by the departmental committee from The Northcap University and one external expert. The principal investigator for the project proposal will also present the proposal to a committee consisting of one member of the Governing Body, the Vice-Chancellor and two Professors. The Committee, after considering the referee reports and the project proposal will recommend sanction of the project from VC’s Innovation Fund.

The sanctioned projects under the scheme will be regularly monitored by the Committee. The outcome of the scheme will be nucleation of new ideas that can be transformed into commercial applications which are beneficial to the society through MJCEI.

An initial allocation of Rs. 15 lakhs per department for projects led by the faculty and Rs. 2 lakhs per projects for students in each academic year is available.

The VC’s Innovation Fund shall be available to UG/PG student’s innovative projects based on their benefits to the society.

THE NORTHCAP UNIVERSITY’S students/faculty are encouraged to submit projects for funding under this innovative funding scheme. The projects can be submitted throughout the year by sending entries at: VCFUNDS@NCUINDIA.EDU

Since 1996, we have believed that academics truly makes sense only when it is applied to some part of life. So, we try to groom our students in a manner that helps them develop passion for their subject and creativity in its application.

For us research and innovation isn’t just a mere academic obligation, but a mindset. Our project and scholarship alliances with leading corporate houses, as well as student and faculty exchange collaborations with international universities take education to the next level. Our emphasis on student quality and a healthy faculty-student ratio ensure an atmosphere conducive to learning.

Keeping all this in mind we work towards our goal of bridging the gap between the classroom and the real world.
